

Mitchel Mayle III

1620 Alameda Avenue, Lakewood OH, 44107 | (440) 454-1186 | mitchel.mayle@gmail.com | mitchelmayle.com

I am accustomed to accepting responsibility and delegating authority, and am capable of working with and through people at all levels. I am able to plan, organize, develop, implement, and supervise programs and special projects. I welcome new experiences with enthusiasm and am prepared to apply my problem-solving skills to complete any task.

Education

TECH ELEVATOR | SPRING 2017

- C# Programming Fundamentals: loops, exception handling, I/O
- Database Programming: MS SQL, SQL queries, table design and creation
- Object Oriented Programming: class modeling, access modifiers, inheritance, polymorphism, interfaces, encapsulation
- Web Application Development: ASP.NET MVC, HTML, CSS, Javascript, Razor. Selenium, Cucumber
- Developmental Tools/Techniques: Visual Studio 2015, agile development, unit testing (MSTest), TDD, Git commands

Project Experience

- Developed web application geared towards awarding children for fitness activity. A parent can register an account, add a child to their account, and then record physical activity from a fitness tracking device that awards the child with play time and on-site currency. A child can use this currency to purchase cosmetic items, such as hats and backgrounds, for their chosen avatar. (hoptoit.apphb.com)
- Developed a web application using ASP.NET MVC to display national park information from an SQL database. Users of the site are able to select a park, view a simulated five-day weather forecast, and submit a survey that is saved in a database. (npgeek.apphb.com)
- Developed originally as a C# console application game, the player's objective is to buy and sell computer parts in order to accumulate as much money as possible during an in-game period of 30 days. Every day in the game, the prices are randomized, and there are chances of random events occurring. This console application is available in the form of a web-app as well. (computerwars.apphb.com)

Work Experience

CENTER MANAGER | FEDEX OFFICE | OCTOBER 2012 – AUGUST 2016

- Promoted from Center Consultant, to Lead Consultant, to Assistant Manager, to Center Manager
- Corresponded with multiple business partners daily regarding large projects
- Increased year-over-year revenue for my center by 80% for FY2016
- Recruited and interviewed potential new team members, oversaw hiring process, and provided on-boarding training
- Ensured the maintenance of fiscal reporting procedures at my center, including accounts receivable, inventory reports, daily sales recaps, and daily bank deposits
- Coached and developed team members using the Situational Leadership model by providing relevant performance feedback and delegating new tasks
- Consulted with customers regarding print orders, organized production of complex orders, inspected the quality of printed products in compliance with company policy
